

Metal Gear - 14-1/2 Degree Pressure Angle

Press-Fit Mount, 32 Pitch, 20 Teeth

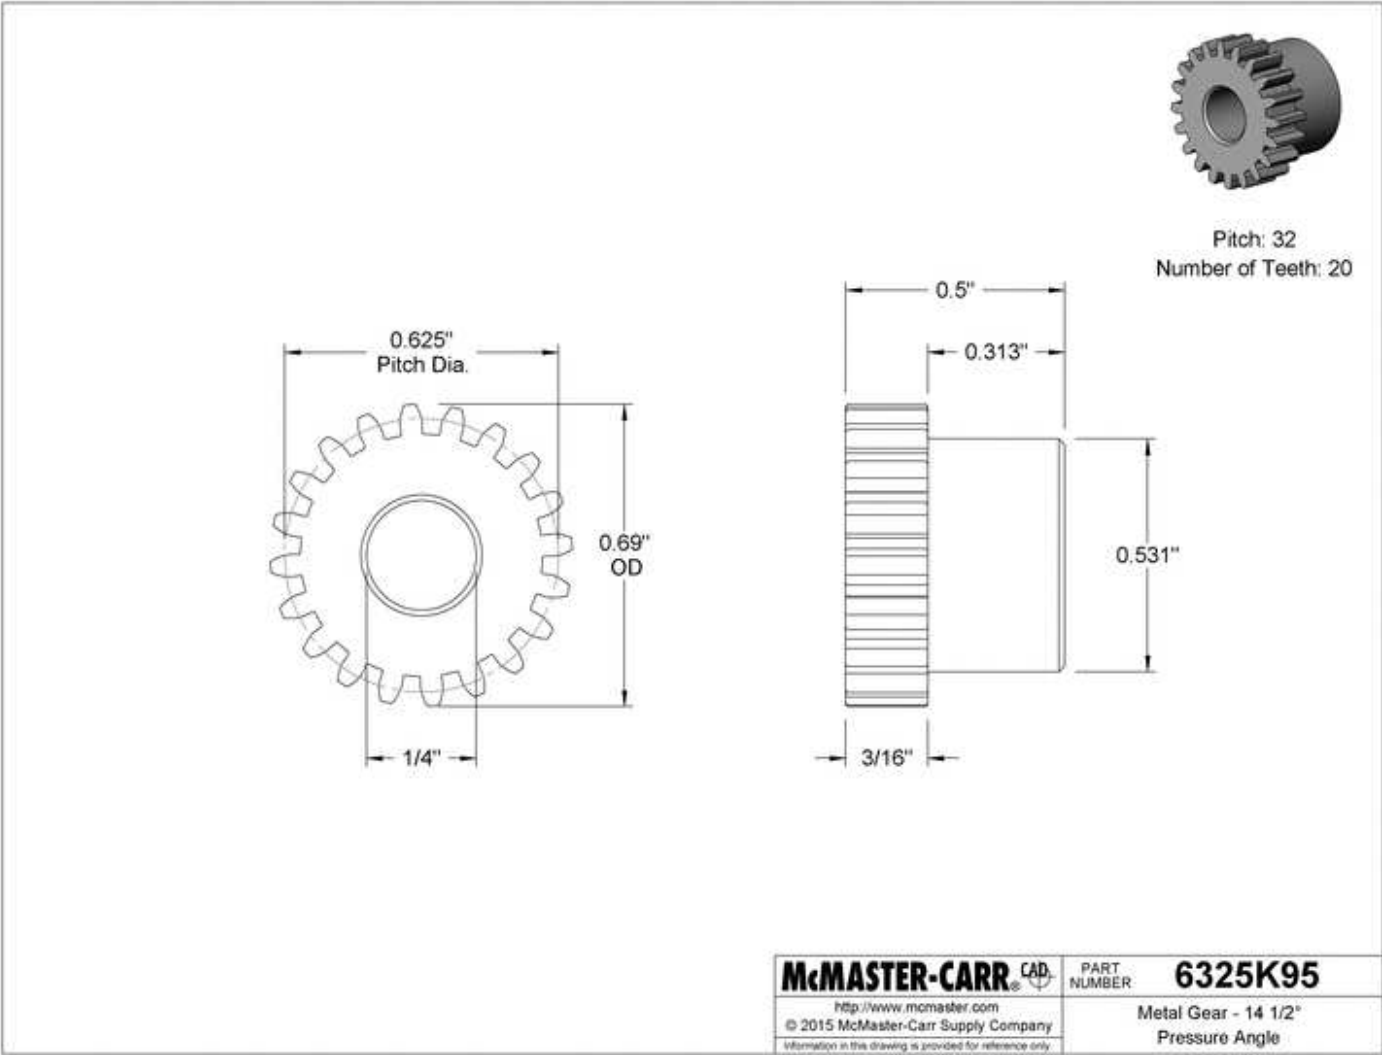

In stock
\$17.49 Each
6325K95

Pressure Angle	14 1/2°
Pitch	32
Number of Teeth	20
Pitch Diameter	0.625"
OD	0.69"
Face Width	3/16"
Overall Width	0.5"
Material	Steel
Bore Type	Plain
Mount Type	Press Fit
For Shaft Diameter	1/4"
Hub	
Diameter	0.531"
Width	0.313"
RoHS	Compliant

Also known as spur gears, these gears have a 14 1/2° pressure angle that maximizes contact between mating teeth for smooth operation.

For gears and [racks](#) to mesh correctly, they must have the same pressure angle and pitch. Use these gears with other components that have a 14 1/2° pressure angle.

The information in this 3-D model is provided for reference only.
